

Season of Creation

ArchIndy
Creation Care
Commission
Week 5

Feature: Transportation

Do you know how much fuel you use per day? Per week? Per year? In 2018 in the US, about 391.40 million gallons of finished motor gasoline were used per day! The emissions from fuel used for transportation account for about 29 percent of total US greenhouse gas emissions, making it the largest contributor to the total US greenhouse gas emissions.

Even if you can't walk or bike there are other ways to reduce fuel consumption. Share a ride with other people or use public transportation to go to work, the supermarket, mass, parish meetings, etc.

Lord - guide our prayer and action to be a source of renewable energy for the earth. May we slow down amidst the hustle and bustle of the world to start building peace and instilling a love of creation in the hearts of those around us.

Take Action!

Monday: Go meat free all day!

Tuesday: Go the whole day without turning on any lights!

Wednesday: Turn off the faucet while brushing your teeth - every day!

Thursday: Start the process to go completely paperless with bills, store receipts, meeting agendas, handouts, etc.

FRIDAY - Plant a tree

Join a parish tree planting or plant your own tree for the Feast of St. Francis. More info at OurCommonHome.org

Saturday: Relax! Enjoy nature and celebrate this Season of Creation!

Sunday: Read Ch 6 of Laudato Si'

This is not intended to provide medical advice. Consult your physician before starting something new!

OurCommonHome.org

From Sept to Oct each year, Christians around the world celebrate the Season of Creation by praying and acting together to protect our common home. View all 5 weeks and find more info and events on the website!
